

**Proprietary Director of Iberdrola Energía Internacional, S.A.U.**

Industrial Engineer with a specialty in Mechanical Engineering from the *Instituto Católico de Artes e Industrias* (ICAI) in Madrid. He completed the General Management Program (PDG) at Escuela de *Dirección del Instituto de Estudios Superiores de la Empresa of Universidad de Navarra* (IESE Business School).

He serves as chair and chief executive officer of Iberdrola Renovables Internacional, S.A.U.

**OUTSTANDING EXPERIENCE FOR THE DEVELOPMENT OF THEIR POSITIONS IN THE COMPANY**

Before he joined Iberdrola in 1996, he started his professional career at Bechtel Construction, working in several nuclear maintenance projects in the United States of America.

He joined the Iberdrola Group more than 25 years ago, during which time he has acquired in-depth experience of the electricity sector and the different business areas of an electricity company

His responsibilities in the Group have focused mainly on international activity. In this sense, after a few initial years in the Corporate Development area, he led the Altamira combined cycle projects in Mexico in the early 2000's. Between 2005 and 2010, as Director of Development of the Engineering and Construction area, he promoted the growth of that business in the Middle East, Europe, the United States of America and Latin America. Afterwards, he joined Iberdrola Renovables as International director, a position he held until 2015, increasing the presence of the Iberdrola Group in Brazil, Mexico and continental Europe.

Finally, after five years in the Networks business in Spain, since September 2021 he has been leading the development of the Iberdrola Group's Offshore activity in Asia as Offshore Director for the Asia Pacific region.
